

# Global Colocation Portfolio

CAGE AND CABINET SOLUTIONS FOR YOUR EDGE DEPLOYMENTS

## Secure and Scalable Critical IT Infrastructure

Flexible Colocation Solutions provide the security, compliance and reliability you need to ensure your assets are protected.

Digital Realty's global footprint allows for on-demand expansion into new markets, with direct, secure access to a robust ecosystem of connectivity and cloud providers. Easily manage your applications across multiple clouds in many regions with redundant connectivity options, all from a single portal. Whether a first-time deployment or scaling to meet demand, you can serve your customers effectively, with customized solutions when and where you need them.

## The Digital Realty Advantage

100% uptime SLA ensures resiliency of your deployment.

- 1** Global consistency across a variety of configurations ensures operational reliability and consistency
- 2** Expert remote hands services for on-demand assistance with hardware tasks
- 3** Local and global interconnection with access to clouds, networks, and local partners
- 4** Stringent security controls with extensive security infrastructure, including CCTV, biometric / card access, local NOC personnel
- 5** Compliance and certifications to support industry and data protection requirements, including ISO, SOC, and mapping to HIPAA and NIST controls
- 6** Flexible power density configurations to meet application requirements

### Secure

Designed to ensure mission-critical data is always secure and available

### Connected

Access the ecosystems that power your business through a simple and open platform

### Scalable

Future-proof your deployment with significant capacity for your growing requirements

### Flexible & Efficient

Manage your IT environment in real time, spend less time on data center management

### Space

- Cabinets from 42U to 52U
- Cages starting at 100 sq.ft.
- Private suites that are fully customizable

### Power

- Redundant N+1 to 2N+1 service
- AC power with protected voltage
- DC power feeds voltage (-48V) converted from AC to equipment
- Backup generators to support 100% uptime

### Services

- Scheduled and on-demand services available
- Remote hands services at all sites
- 24x7 and 365 coverage\*

### Interconnection

***A variety of connection methods to meet local and cloud strategies:***

- Cross Connect
- Campus Connect
- Metro Connect
- Service Exchange
- Internet Exchange
- IP Bandwidth

\*See page 3 for availability

# Site Features

- Distributed redundant power and cooling designs
- Advanced physical security features and controls
- Metro/campus connectivity to neighboring facilities
- Variable power densities and floor loads
